WHAT LIES AT THE END/ AT THE END OF THE ROAD

BY HARIBO

TRANSLATED AND EDITED BY ANONYMOUS

IF YOU ARE READING THIS AND YOU HAVEN'T BOUGHT A CHAPTER YET BUY ONE RIGHT NOW AND SUPPORT THE AUTHOR!

NOTE: If Haribo asks for this translation to be taken down, I expect all websites and individuals to honor her request. I translated this because the Korean raw is free now, and many people don't have access to Lezhin for some reason or another. But if Haribo isn't okay with it, then it should be taken down. Thank you.

Thank you for reading. I'd like to remind everyone that if you are not in a third-world country living in a shack, and Lezhin is accessible in your country, you should support Haribo and buy this manhwa. In addition, I beseech manga aggregate sites to discontinue distribution of this translation if Haribo expresses that she is against it. She is the author, and it's her right. Please respect her wishes. I assumed this would be okay since the Korean version of this chapter is available for free, but if Haribo isn't okay with it, I won't continue. I hope you all understand. Thank you.
